Disastrous Conflagration

THIRD FIRE ON SAME SITE

John T. Parker's Livery Stable a Mass of Ruins

McIlvain & Humphreys Meet Heavy Loss—Damage to Opera-House and Other Property

Owing to the splendid water system—a pressure of a 161 to the square inch—big fires in Maysville are few and far between, but the burning of Parker's Livery Stable, one of the largest and most complete in the city, and McIlvain & Humphreys's Furniture Store this morning will be classed as such.

The fire started in the hay loft in the second story next to the Opera-house, and when discovered was an incipient blaze.

From the time of the alarm until water was thrown at least a half hour had elapsed, and in the meantime the fire had gained such proportions as to threaten the Opera-house, First National Bank, Bulletin Office, Public Library, Murray & Thomas's Marble Works, Miller's Harness Shop, C. W. Chambers's Repair Shop, Pickrell & Creighbaum's tailoring establishment, Redmen's Hall and other buildings in the immediate vicinity.

Three of the fire companies responded in full force, and once at work did noble service, subduing and confining the flames within the scope of the livery stable and furniture store.

At one time the flames leaped high and illuminated the heavens, the heat so intense it hampered the work of the brave firemen, who, notwithstanding, stood nobly to their unselfish and heroic task.

This disastrous fire falls particularly hard on Mr. John T. Parker, who was just recovering from a similar misfortune in the same location eight years ago.

Sunday morning, January 30th, 1898, this square was visited by a conflagration that licked up in a few hours \$50,000 worth of property, including the Opera-house.

The stable and contents were valued at \$25,000, and with the exception of about forty head of horses, all of which were saved, the loss will reach at least two-thirds of the amount, with a total insurance of \$6,000 on building and \$4,000 on stock.

Messrs. McIlvain & Humphreys were carrying a \$12,000 stock, and had \$6,500 insurance.

The loss on Washington Opera-house will be from \$500 to \$800; insured.

The contents of the Public Library were insured for \$1,100 and the building for \$1,000, which will cover its loss.

Murray & Thomas lost \$200; insured.

How the fire started will probably never be known, although three men were sleeping in the stable at the time.

SPARKS.

Harris Cooper discovered the fire at 1:30. Mr. Parker, at the sight of his possessions being consumed, became so excited and overcame that he had to be restrained by friends from entering the burning building.

Notwithstanding precaution had been taken by the Opera-house management in laying hose throughout the building to fight the fire, the cornice work at the very highest point blazed out, and for ten or fifteen minutes men with bated breath stood and watched the firemen in their futile efforts to reach it. At last a stream from the Neptune shot up and reached the spot amid the buzz of the onlookers.

Messrs. McIlvain & Humphreys saved their finest hearse, it being in service at the time of the fire.

The fire was under control at 3:30, and the firemen quit work at 6:30.

The contents of the Public Library were carried out, but the damage from water and other causes will necessarily be considerable.

The side wall next to the Library is in a dangerous condition and liable to fall over onto the Library.

George Griffin lost all of his clothing excepting that on his back.

Gordon Gilmore lost a barouche and buggy valued at \$275.

Young Cooper undoubtedly saved the loss of life by his timely discovery and warning to the sleeping inmates of the stable.

Mrs. Lida Rogers lost three rigs and Mr. C. D. Russell one.

This is the third time the writer has seen a livery stable burn on this site—first in 1849, again in 1898, and now in 1906.

Henry Shea is a host in himself. As the firemen were at first unable to reach the verger-board of the Opera-house stage annex, Mr. Shea clambered to that corner of the building, 95 feet above ground, and fought the flame with his hat.

Messrs. Parker and McIlvain & Humphreys wish THE LEDGER to thank the firemen most heartily for heroic endeavors to save their property.

Bully for Gerbrich! Mr. F. F. Gerbrich was early on the ground, and after the horses were gotten out into a side lot, he fairly fought them back from re-entering the burning building, until a gate was unhinged and they were driven into Second street.

The Limestone boys—brave fire-fighters that they are—appear to have gotten lost in the shuffle.

The dense fog totally obscured the light of the fire beyond a distance of two squares; a clear night it could have been seen for miles, and the whole town would have been on hand.

The Maysville firemen are keeping up their record of late years—never to let a building burn beyond the one in which the fire originates.

Colonel and Mrs. R. B. Lovel are losers—told former a barouche valued at \$350, and the latter a set of \$50 harness.

Dr. J. H. Samuel will walk now when he rides. His buggy and harness were consumed with Parker's Stable.

It was all too bad; but it might have been a great deal worse. And now for stout hearts and willing hands to repair the losses.

The Rev. J. B. Cronch will remove from Carlsle to Bowling Green, Mo.

Born, last Tuesday evening, to Mr. and Mrs. Joseph P. Larkin of Washington, a fine daughter.

Mt. Olivet is to have a new Bank. Falmouth parties are promoting it, and the institution will have a capital stock of \$20,000.

In the Common Pleas Court at Georgetown, O., a few days ago the Maysville Foundry and Machinery Company was granted a judgment against A. M. Danbery for the sum of \$461.70, with interest from January 22d, 1906. The defendant to the action was in default in not appearing, though legally notified.

REPUBLICAN COUNTY CONVENTION.

The Republicans of Mason county are called to meet in Mass Convention at the Courthouse in Maysville on Saturday, August 11th, 1906, at 2 o'clock p. m., for the purpose of selecting Delegates to the Congressional Convention to be held at Ashland on August 15th, 1906.

W. D. COCHRAN,
Chairman Executive Committee Mason County.

THE most casual observer cannot have failed to notice the evidences of incompetency on the part of some one connected with the street paving job. The concrete curbing and guttering already laid in Third street is a disgrace to mechanics, in that it has been put down without regard to lines or fall. The object in first putting down the gutters, I take it, is to afford a "guide" for laying the brick; if the gutter is undulating, so will be the street when laid, and instead of an even surface there will be "hills and hollows."

This is not the sort of work provided by the specifications, and it is not the sort of work that should be paid for—or that will be paid for by some property owners.

There is incompetency somewhere.

If the Committee can't enforce the provisions of the specifications, a new Committee is needed; if the Engineer is incompetent, he should be removed; if the present Contractor will not conform to the specifications and to the orders of the Engineer, he should be ousted at once and the contract given to another.

It will hardly do to say that the defective parts of the work will be taken out and replaced; whenever an attempt is made to "patch up" a

job, it generally results in an irreparable "botch." Besides, it costs less to do work right in the first place.

And just here, I think the Committee erred in opposing Councilman WALTHER's motion to appoint one or two property-owners as members of the Street Paving Committee. It occurs to the average citizen that he would be only too glad to have some of the parties in interest share with him the responsibility of failure, if failure comes. Instead of opposing such action, the members of the Council Committee should have invited it.

The building of these brick streets is a different proposition altogether. Heretofore street improvements have been made at the expense of the city's taxpayers jointly. This time those in front of whose property the street is laid will be called on to pay the cost out of their own pockets, barring intersections and in front of alleys, and even for these they must stand their pro rata of the cost. This being the case, the people who are to do the paying propose to have a share in saying how the work shall be done.

It is time to call a halt!

The Board of Council meets next Monday night; and in the absence of action on its part, THE LEDGER favors a concerted movement by those who are to pay for this work, stopping the whole business unless there are immediate steps for the proper fulfillment of the specifications by persons who are competent to do it.

Don't wait until it's too late; "kick" right now, and kick good and hard!

Suffered Severely With Eczema All Over Body—Examined 15 Times by Government Board Who Said There Was No Cure—An Old Soldier Completely Cured.

A THOUSAND THANKS TO CUTICURA REMEDIES

"For over thirty-five years I was a severe sufferer from eczema. The eruption was not confined to any one place. It was all over my body, limbs, and even on my head. I am sixty years old and an old soldier, and have been examined by the Government Board over fifteen times, and they said there was no cure for me. I have taken all kinds of medicine and have spent large sums of money for doctors, without avail. A short time ago I decided to try the Cuticura Remedies, and after using two cakes of Cuticura Soap, two boxes of Cuticura Ointment, and two bottles of Cuticura Resolvent, two treatments in all, I am now well and completely cured. A thousand thanks to Cuticura. I cannot speak too highly of the Cuticura Remedies. John T. Roach, Richmondale, Ross Co., Ohio, July 17, 1905."

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Ruggles Campmeeting

Correspondence Public Ledger.

RUGGLES CAMPGROUNDS, July 30th, 1906.

We are getting our share of rain. After a short period of sunshine about noon yesterday it began to rain again and it has literally come down in buckets full since. The people are anxious to come to campmeeting, for during that short period of sunshine quite a large crowd came so that when time for the afternoon service came the Tabernacle was well filled. Dr. Baker delivered a powerful and searching sermon to the young people at this service on the practical part of a young person's Christian life. At its close about 150 young people came forward to the altar and pledged themselves to give up all and follow Christ. About that many more older Christians came forward in token of their desire to encourage and help them in the Christian race.

Dr. Royal preached to a large audience again in the evening, and in spite of the rain, which naturally caused some confusion, was given the best of attention throughout his excellent discourse. We regret that Dr. Royal cannot remain with us as he has endeavored himself to all Christians by his convincing messages from God's word.

This morning Rev. H. W. Bunton will preach and Dr. Oliver of Covington will likely arrive and preach tonight.

There is so much to enjoy out here that the time passes all too quickly. Between services the campers give themselves up to the enjoyment of real camp life, some go hunting, others go blackberrying, others to the croquet grounds, still others pay social calls, others enjoy a book in a shady nook and many other things, so there is never a dull moment.

Our good friend John Crane ran amuck a hornet's nest Saturday while picking black berries, one of the pests stinging him right on the end of his nose. He had visions of a nose as big as his fist and eyes closed to greet his friends on Sunday until a happy thought struck him. Taking a big chew of tobacco he poulticed his nose with it and to his joy his nose kept its usual size. He will shun such close association with hornets hereafter.

Beautiful Beechwood.

The show at Beechwood this week is a good one, for judging from the applause of the large audience, the program was very enjoyable. Daly and O'Brien have a good comedy act that kept everybody in a roar of laughter. The illustrated song, "Only a Message from Home, Sweet Home," is one of the prettiest that has been heard this season. Christopher, the magician, certainly made good with his clever sleight-of-hand tricks, and he has one of the best acts of the kind the writer has ever witnessed. The program closed with the ever

popular Kinodrome Pictures, "Behind the Stage," "The Wonderful Bee Hive," being a very fine colored picture, and "Pity the Blind" proved to be one of the best comic chase pictures that has been shown. If you do not go out tonight you will be missing a very pleasant evening's entertainment.

WHAT NEXT?

Soon You May Be Able to Shake Hands Across the Sea

Scientists are displaying a keen interest in the televue, or "televue," as the inventor, J. B. Fowler, of San Diego, Cal., prefers to call it, and which, when completed and placed under the telephone, will enable persons talking to see each other as plainly as if they were in the same room.

Like almost all other marvelous inventions, the televue is extremely simple in principle.

The user sits down in front of the instrument, and a strong light is thrown on the face by some five or six electric globes.

Under the telephone mouthpiece is a large round disc of glass, somewhat thicker in the middle than on the edges. In the center of the glass there is a small hole, and through this the sitter is able to see the person to whom he is talking.

The secret of the invention, Mr. Fowler says, lies in the perfect mechanical and chemical combinations. During the entire conversation the televue keeps up a constant buzz.

The inventor predicts that in a very short time one will be able to talk from New York to Chicago and see the person at the other end of the line.

The possibilities are infinite, as the televue can be developed to include such work as exploring sunken wrecks and presenting views of articles from the home or office.

For instance, the housewife can call up her grocer and order her weekly supplies without the slightest fear of getting old goods.

She can select a dress pattern from a department store and never leave her apartment.

Mr. Fowler says he worked twenty-six years before he completed the invention.

BUSINESS

If your printed matter is the best obtainable, the printing you use is always your business representative, and like any other salesman, should be well dressed and create a favorable impression even before any argument is advanced. The "best obtainable" costs no more than the indifferent variety—in fact, it's the cheapest, for every piece is fertile seed that will yield a harvest of 25¢ to 50¢ per copy.

"BULLY" VISITOR

Mad Bovine About to Enter Taylor's Store at Washington

Taylor at Washington is always glad to have customers and he hopes he doesn't lack hospitality, but the customer he tackled one day last week, upon hearing a great hurrah and going to the door, was one calculated to make him throw up his hands.

A mad bull, with eyes like balls of fire, confronted him, intent on disputing the right of way.

A timely brickbat crashing against his head was all that deflected the bull from the door, as he had lifted his foot for the step.

Taylor claims to have seen some sights and to have been in some tight places in his day, but he doesn't reckon the bull's adventure the least by any means.

A MEASURE OF MERIT

Maysville Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence. Convincing evidence in Maysville, is not the testimony of strangers. But the indorsement of Maysville people. That's the kind of proof given here—The statement of a Maysville citizen.

Mrs. Lizzie Burns, living on the Blue Run Turnpike, West End, Maysville, Ky., says:

"My opinion of Doan's Kidney Pills which I expressed through our newspapers in the spring of 1906 has not altered. I value this preparation more highly today than I did when I gave my first testimonial. Before I got Doan's Kidney Pills at J. James Wood & Son's Drugstore I was troubled with severe spells of backache and kidney complaint, which came on every three or six months, and there were times when I was confined to my bed and rendered almost helpless. The quick and decided benefit I received from Doan's Kidney Pills was wonderful. I have noticed slight returns of backache since, but an appeal to Doan's Kidney Pills has never failed to quickly and positively check the trouble. In every case I know among my friends when Doan's Kidney Pills have been used the results have always been satisfactory."

For sale by all dealers. Price 60 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no substitute.
